

ST. KITTS-NEVIS-ANGUILLA NATIONAL BANK LIMITED**NOTES TO THE FINANCIAL STATEMENTS**
FOR THE YEAR ENDED JUNE 30, 2003**1. Incorporation**

The St. Kitts-Nevis-Anguilla National Bank Limited was incorporated on the 15th day of February, 1971 under the Companies Act chapter 335, but was re-registered under the new Companies Act No. 22 of 1996 on the 14th day of April, 1999.

2. Principal Activity

St. Kitts-Nevis-Anguilla National Bank Limited provides a comprehensive and international range of banking, financial and related services.

3. Significant Accounting Policies

The principal accounting policies of the Bank are based on generally accepted accounting principles. These accounting policies are summarized below: -

(i) Basis of preparation

These financial statements are prepared in accordance with the historical cost convention and International Accounting Standards.

(ii) Cash and Cash Equivalents

Cash and Cash Equivalents, as mentioned in the statement of cash flows, comprise of cash on hand, balances with other banks and the Eastern Caribbean Central Bank, as well as short term funds and investments whose maturities are ninety days or less.

(iii) Depreciation

Freehold buildings are depreciated on a straight-line basis at a rate of 2 ½% per annum. Equipment, furniture, fittings and vehicles are depreciated on a straight-line basis over their useful lives at rates ranging from 10% to 33 1/3%.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2003

(iv) Currency

All values are expressed in Eastern Caribbean Currency.

(v) Foreign Currency

Foreign currency transactions are accounted for at the mid-rate of exchange prevailing at the date of the transaction. Financial assets and liabilities denominated in foreign currencies at year-end are converted to Eastern Caribbean currency at the mid-rate of exchange ruling on that day. Gains and losses resulting from such transactions and from the translation of financial assets and liabilities denominated in foreign currencies are recognized in income.

(vi) Investments

Investment securities are classified into the following three categories: available-for-sale, held-to-maturity, and originated debts assets. Investment securities intended to be held for an indefinite time period, which may be sold in response to needs for liquidity or changes in interest rate or equity prices are classified as available-for-sale. Investment securities with fixed maturity where management has both the intent and the ability to hold to maturity are classified as held-to-maturity.

Investment securities are initially recognized at cost - which includes all transaction costs. Available-for-sale financial assets are subsequently re-measured to fair value based on quoted bid prices. As fair values for unquoted securities are not readily available, both equity and debt securities are measured at cost less any provision for impairment.

Unrealised gains and losses arising from changes in fair value of securities classified as available-for-sale are recognized in income. When securities are disposed of, the resulting gain or loss is included in income.

A financial asset is impaired if its carrying amount is greater than its estimated recoverable amount. The recoverable amount of a financial instrument measured at fair value is the present value of future cash flows discounted at the current market rate of interest for a similar financial asset. When securities become impaired the related impairment loss is charged to income as a loss.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2003

Investments continued

Held-to-maturity and originated debt investments are carried at amortised cost using the effective yield method, less any provision for impairment.

An impairment loss on financial assets carried at amortised cost is the difference in the asset's carrying amount and the present value of future cash flows discounted at the financial instrument's original effective interest rate.

Interest earned on all investment securities is reported in interest income. Dividend on equity securities, when received, is reported separately in dividend income. All purchases and sales of investment securities are recognized at trade date – the date on which the Bank commits to purchase or sell all financial assets.

(vii) Loans and Advances

Loans originated by the Bank are financial assets created by providing money directly to a borrower and as such are carried at cost.

The accrual of interest ceases when the principal or interest is past due 90 days or when, in the opinion of management, full collection is unlikely. The allowance for loan impairment is based on continuous appraisal of all loans and advances together with an annual review of loan collateral. Specific provisions for losses are made against loans and advances when, in the opinion of management, credit risk or economic factors make recovery doubtful.

The allowance for loan impairment also covers general provisions for losses as required by the regulators, as there is always the possibility of losses within a loan portfolio that have not been specifically identified as non-performing at the balance sheet date.

The provision for loan impairment and recoveries of bad debts previously written off is charged to income. When a loan is uncollectable, it is written off against the related allowance for impairment. All subsequent recoveries are credited to the bad debt recovered income account.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2003

(viii) Income

Interest income is recognized on the accruals basis for productive loans and advances, Investment Securities, and Interest bearing deposits with other financial institutions. Non-Productive loans and advances relate to accounts whose repayments of principal or interest are 90 days or more in arrears. Interest on these accounts is taken to income when received. Other income, such as fees and commission, is recognized on the accruals basis.

(ix) Comparative Figures

Certain changes in presentation have been made during the year and comparative figures have been restated accordingly. Some of these changes include dividend payment and provision for income tax. The effect of such changes is included in accumulated provisions, creditors and accruals, and retained earnings respectively. Other changes include the separation of term deposits from short-term investments, investment in subsidiaries from long-term investments, and balances due to other banks from customers' deposits.

(x) Reserve Requirement

In accordance with Article 33 of the Eastern Caribbean Central Bank (Central Bank) Agreement 1983, The St. Kitts-Nevis-Anguilla National Bank Limited is required to maintain reserves against deposits through cash holdings and or by deposits held with the Central Bank.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2003

Deferred Credit continued

During the year ended June 30, 2001 the Directors took a decision to defer a portion of the Bank income (\$10,000,000) arising from the Sugar Industry until a final decision is taken on its future and the effect on the accounts of the Bank is known.

St. Kitts-Nevis Mortgage and Investment Company Limited (MICO), a subsidiary of the Bank, bought at public auction in December 2002 the remaining properties used by Trafalgar Development as security for advances made to it by the Bank. As a result, interest accrued on those advances is deferred until MICO disposes of the said properties to outside buyers.

FOR THE YEAR ENDED JUNE 30, 2003

	<u>2003</u>	<u>2002</u>
	\$	\$
19. Earnings Per Share		
Earning per share is calculated by dividing the net income attributable to shareholders by the weighted average number of ordinary shares in issue during the year.		
Net income attributable to shareholders	17,595,880	19,213,538
	=====	=====
Weighted average number of ordinary shares in issue	81,000,000	63,000,000
	-----	-----
Diluted/Basic earnings per share	0.22	0.30
	=====	=====
20. Proposed Dividend	10,935,000	8,100,000

A dividend in respect of the year just ended of 13.5% of issued share capital is proposed. (2002 – 13.5% was proposed). Actual dividend paid for the financial year ended June 30, 2002 was \$8,355,644, which represented the 13.5% proposed, and therefore, created an adjustment to retained earnings of \$255,644.

21. Contingent Liabilities

21.1 Pending litigation

HIGH COURT SUIT SKBHCV2002/0015

A former corporate customer filed a lawsuit in the amount of US\$1.8 million against the Bank. The case is being defended as the Bank denies any liabilities to the customer.

Professional legal advice indicates that the claim will not succeed, and therefore, no provisions were made.

SKBHCV2002/0250

A claim for the return of a Certificate of Title was filed against the Bank by two customers. The customers also claimed damages in an unspecified sum.

The Bank defended the claim on the grounds that it has a lien on the Certificate of Title for the monies owing to it by the customers. The Bank further counterclaimed for the sum of EC\$6,000 from the said customers.

The Bank was successful at the trial, but the customers have appealed. It is believed that the Bank will once again be successful once the Appeal is heard.

21.2 Financial Commitments

As at June 30, 2003, the Bank was committed to make loans and advances amounting to approximately **\$185,818,000** (2002 – **\$105,054,000**).

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2003

22. Related Parties

Parties are considered related if one party has the ability to control the other party or exercise significant influence over the other party in making operational or financial decisions.

A number of banking transactions are entered into with our subsidiaries and directors in the normal course of business. Those transactions, which included deposits, loans and other transactions, were carried out on commercial terms and conditions, at market rates.

Advances outstanding from directors and associates as at June 30, 2003 amounted to **\$204,233 – (2002 - \$743,562)**.

Deposits balances of directors and associates as at June 30, 2003 amounted to **\$2,236,840 – (2002 - \$1,492,279)**.

23. Fair Value of Financial Assets and Liabilities

Financial assets and liabilities not carried at fair value include cash and money at call, originated debts, investment securities held to maturity, investment in subsidiaries, due to other banks, customers' deposits and due to subsidiaries. The following methods and assumption are relevant to their fair value:

Assets

Cash and money at call

Since these assets are short-term in nature, the values are taken as indicative of realizable value.

Loans and advances

Loans and advances are net of provision for loan losses. These assets result from transactions conducted during the normal course of business and their values are not adversely affected by unusual terms. The inherent rates of interest in the portfolio approximate market conditions and yield discounted cash flow values that are substantially equal to the carrying value.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2003

23. Fair Value of Assets and Liabilities *continued*

*Investment securities held to maturity and
Investment in subsidiaries*

The fair value of these items is assumed to be equal to their carrying values.

Liabilities

Due to other banks, customers' deposits and due to subsidiaries

The fair value of financial liabilities with no stated maturity is assumed to be equal to their carrying values.

Deposits with fixed rate characteristics are at rates that are not significantly different from current rates and are assumed to have discounted cash flow values that approximate carrying values.

24. Currency Risk

The Bank has no significant exposure to currency risk as substantially all its assets and liabilities as well as its transactions are denominated in Eastern Caribbean dollars or United States dollars.

25. Interest Rate Risk

Interest Sensitivity of Assets and Liabilities

The Bank is exposed to various risks associated with different rates of interest found in the normal course of its business. Interest rate risk mitigation focuses on potential changes in net interest income. These result from changes in interest rates and mismatches in the re-pricing of interest rate sensitive assets and liabilities as well as product spreads. These are monitored and, where necessary, action would be taken to minimize any adverse effect to shareholder value.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2003

26. Liquidity Risk

The Bank is exposed to daily calls on its available cash resources from current accounts, overnight deposits, maturing deposits, loan draw downs and other calls on cash settled items. A range of wholesale and retail funds are managed to ensure that liquidity requirements are met. The Bank liquidity strategy relies on sufficient cash and marketable instruments such as treasury bills and other government securities to meet short term funding needs. Fallback techniques include access to the sub-regional inter-bank market and the ability to close out or liquidate market positions. The Bank ensures that it has sufficient funds to meet its obligations by not converting into loans foreign deposits, demand deposits, reserves, provision for interest, provision for loan losses, and other net financial assets and liabilities.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2003

27. Credit Risk

Geographical Concentrations of Assets and Liabilities

The Bank predominant activity is retail banking services. Exposures to credit risk are mainly concentrated in St. Kitts and Nevis.

The Bank exposure to credit risk is managed through regular analysis of the ability of its borrowers (current and potential) to meet interest and principal repayment obligations. Credit risk is also managed in part by the taking of collateral and/or guarantees as securities on advances, and by the spreading of this risk geographically as well as over a diversity of personal and commercial customers.
