### INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF GRENADA BREWERIES LIMITED

### Report on the Audit of the Financial Statements

### **Opinion**

We have audited the financial statements of Grenada Breweries Limited ('the Company') which comprise the statement of financial position as at December 31st, 2019, and the statement of comprehensive income, statement of changes in equity and the statement of cash flows for the year then ended and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31st, 2019 and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards ("IFRSs").

### Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing ("ISAs"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statemens in Grenada, and we have fulfilled our other ethical resonsibilities in accordance with these requirements. We believe gthat the audit evidence we have obtained is sufficient and appropriagte to provide a basis for our opinion.

### Other information included in the Company's 2019 Annual Report

Other information consists of the information included in the Company's 2019 Annual Report, other than the financial statements and our auditor's report thereon. Management is responsible for the other information.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

### INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF GRENADA BREWERIES LIMITED

### Report on the Audit of the Financial Statements (continued)

### Responsibilities of Management and The Audit Committee for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Audit Committee is responsible for overseeing the Company's financial reporting process.

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

• Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

### INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF GRENADA BREWERIES LIMITED

Report on the Audit of the Financial Statements (continued)

Auditor's Responsibility for the Audit of the Financial Statements (continued)

- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing an
  opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists; we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including
  the disclosures, and whether the financial statements represent the underlying transactions
  and events in a manner that achieves fair presentation.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31<sup>ST</sup> DECEMBER, 2019 (Expressed in thousands of Eastern Caribbean Dollars)

### 1. CORPORATE INFORMATION

The Company was incorporated in Grenada on 27<sup>th</sup> July, 1960. The Company was issued a certificate of continuance under Section 365 of the Company's Act. The Company's registered office and principal place of business is Maurice Bishop Highway, St. George's, Grenada.

The Company's principal activities are the brewing, bottling and distribution of Beers, Stout, Maltas and Soft Drinks.

Grenada Breweries Limited is a subsidiary of the Ansa McAl Group of Companies, which owns 55.54% of the ordinary share capital of the Company.

Ansa McAl Limited is incorporated in the Republic of Trinidad and Tobago and is a diversified public conglomerate which is listed on the Trinidad and Tobago Stock Exchange. The Company's registered office is 11 Maraval Road, Port of Spain, Trinidad.

During the year the Company employed on average one hundred and ninety-seven (197) persons (2018-174).

### 2. SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to the years presented, unless otherwise stated.

### (a) Basis of Preparation

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) and are expressed in Eastern Caribbean Currency Dollars. The financial statements have been prepared under the historical cost convention modified by the revaluation of land and buildings.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 3.

### NOTES TO THE FINANCIAL STATEMENTS AT 31<sup>ST</sup> DECEMBER, 2019 (Expressed in thousands of Eastern Caribbean Dollars) (continued)

### 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

- (b) Changes in accounting policies and disclosures
- (i) New Accounting Standards, Amendments and Interpretations

The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the preparation of the Company's annual financial statements for the year ended December 31st, 2018 except for the adoption of new standards and interpretations below.

### IAS 16 - Lease (Effective 1st January, 2019)

IFRS 16 supersedes IAS 17 Leases, IFRIC 4 Determining whether an arrangement contains a lease, SIC 15 Operating leases-incentives and SIC 27 Evaluating the Substance of Transactions involving the legal form of a Lease. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for most leases under a single on-balance sheet model. Lessor accounting is substantially unchanged from IAS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles as in IAS 17. Therefore, IFRS 16 does not have an impact for leases where the Company is a Lessor.

The adoption of this standard had no material impact on the Company.

### IFRS 9 - Financial Instruments Amendments - Prepayment Features with Negative Compensation (Effective 1st January, 2019)

The amendments to IFRS 9 clarify that a financial asset passes the "solely payments of principal and interest" (SPPI) criterion regardless of the event or circumstances that causes the early termination of the contract and irrespective of which party pays or receives reasonable compensation for the early termination of the contract.

The basis for conclusions to the amendments clarified that the early termination can result from a contractual term or from an event outside the control of the parties to the contract such as change in law or regulation leading to the early termination of the contract.

In the basis for conclusions to the amendments, the IASB also clarified that the requirements in IFRS 9 for adjusting the amortised cost of a financial liability, when a modification does not result in derecognition, are consistent with those applied to the modification of a financial asset that does not result in derecognition.

This means that the gain or loss arising on modification of a financial liability that does not result in derecognition, calculated by discounting the change in contractual cash flows at the original effective interest rate, is immediately recognized in profit or loss. The amendments must be applied retrospectively.

These amendments had no impact on the Company as there are no debt instruments with prepayment features with negative compensation.

### NOTES TO THE FINANCIAL STATEMENTS AT 31<sup>ST</sup> DECEMBER, 2019 (Expressed in thousands of Eastern Caribbean Dollars) (continued)

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

- (b) Changes in accounting policies and disclosures (continued)
- (i) New Accounting Standards, Amendments and Interpretations (continued)

### IFRIC 23 - Uncertainty over income tax treatment (Effective 1st January, 2019)

The IFRIC interpretation clarifies application of the recognition and measurement requirements in IAS 12 *Income Taxes* when there is uncertainty over income tax treatments. The interpretation specifically addresses the following:

- Whether an entity considers uncertain tax treatments separately
- The assumptions an entity makes about the examination of tax treatments by taxation authorities.
- How an entity determines taxable profit (tax loss), unused tax losses, unused tax credits and tax rates.
- How an entity considers changes in facts and circumstances.

An entity has to determine whether to consider each uncertain tax treatment separately or together with one or more uncertain tax treatments. The approach that better predicts the resolution of the uncertainty should be followed.

The adoption of this interpretation had no impact on the Company.

### IAS 12 Income Taxes - Amendment - Income tax consequences of payments on financial instruments classified as equity (Effective 1st January, 2019)

The amendments clarify that the income tax consequences on dividends are linked more directly to past transactions or events that generated distributable profits than to distributions of owners. Therefore, an entity recognized the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognized those past transactions or events.

An entity applies those amendments for annual reporting periods beginning on or after 1 January 2019. When an entity first applies those amendments, it applies them to the income tax consequences of dividends recognized on or after the beginning of the earliest comparative period.

The adoption of this amendments have no impact on the Company.

### NOTES TO THE FINANCIAL STATEMENTS AT 31<sup>ST</sup> DECEMBER, 2019 (Expressed in thousands of Eastern Caribbean Dollars)

(continued)

### 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

- (b) Changes in accounting policies and disclosures (continued)
- (ii) Standards in issue not yet effective

The following is a list of standards and interpretations that are not yet effective up to the date of issuance of the Company's financial statements. The Company intends to adopt these standards where appropriate, when they become effective.

- IFRS 17 Insurance Contracts (Effective 1 January 2022)
- Amendments to IFRS 3 Definition of Business (Effective 1 January, 2020)
- Amendments to IAS 1 and IAS 8 Definition of Material (Effective 1<sup>st</sup> January, 2020)
- Amendments to References in the Conceptual Framework in IFRS Standards (Effective 1<sup>st</sup> January, 2020)

### (c) Property, plant and equipment

Some items of property, plant and equipment are stated at valuation less subsequent depreciation. The others are stated at cost less accumulated depreciation.

Subsequent costs are included in the assets carrying amounts or are recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the statement of comprehensive income during the financial period in which they are incurred.

Increases in the carrying amount arising on revaluation of land and buildings are credited to revaluation surplus in equity. Decreases that offset previous increases of the same asset are charged against the surplus directly in equity; all other decreases are charged to the statement of comprehensive income.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31<sup>ST</sup> DECEMBER, 2019 (Expressed in thousands of Eastern Caribbean Dollars) (continued)

### 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### (c) Property, plant and equipment (continued)

Land is not depreciated. Depreciation on other assets is calculated using the straight-line method to allocate their cost or revalued amounts to their residual values over their estimated useful lives. The rates used are as follows:

Per annum

Freehold properties	2% -2.50%
Plant and machinery	2.5% - 33.33%
Motor vehicles	20% - 33.33%
Furniture, fixture and equipment	10% - 33.33%
Computers	16.67%-33.33%
Bottles	33.3%
Crates	10% - 12.5%

The assets' residual values and useful lives are reviewed and adjusted if appropriate, at each statement of financial position date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amounts. These are included in the statement of comprehensive income. When revalued assets are sold, the amounts included in revaluation surplus are transferred to retained earnings.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31<sup>ST</sup> DECEMBER, 2019 (Expressed in thousands of Eastern Caribbean Dollars) (continued)

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### (d) Inventories

Inventories are valued as follows:

Raw materials and general stocks - The lower of landed cost determined on the average price basis and net realizable

2) Consumable stores - The lower of landed cost and net realizable value on a first-in, first-out basis.

3) Work-in-progress - Raw material costs, direct labour and

overheads incurred in brewing,

4) Finished products

- Raw material costs, direct labour and overheads incurred in brewing, bottling

and packaging

Goods in transit - Suppliers' invoiced cost.

Adequate provision has been made for slow-moving and obsolete items.

### (e) Returnable bottles and crates in circulation

The refundable deposit on bottles and crates is recorded in current liabilities.

### (f)) Foreign currencies

Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the date of the statement of financial position. The resulting profits and losses are dealt with in the statement of comprehensive income. There are no foreign currency borrowings.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31<sup>ST</sup> DECEMBER, 2019 (Expressed in thousands of Eastern Caribbean Dollars) (continued)

### 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### (g) Past Service benefits other than pensions

The Company provides, to all employees who are members of the Technical and Allied Workers' Union (TAWU), a past service benefit payable at the end of employment. This is charged against profit on a systematic basis over the employees' period of employment with the Company. The benefit is calculated on a monthly basis by applying a percentage of current salary levels and is accrued in non-current liabilities.

### (h) Profit Sharing Scheme

The Company operates an employee profit sharing scheme and the amount to be distributed to employees each year is based on the terms outlined in the union agreement. Employees receive their profit share in cash. The Company accounts for the profit share as an expense, through the statement of comprehensive income.

### (i) Cash and Cash Equivalents

Cash and cash equivalents comprise of cash on hand and at bank and short-term demand deposits with original maturity of three (3) months or less.

### (j) Trade and Other Receivables

Trade receivables are amounts due from customers for merchandise sold or services performed in the ordinary course of business. If collection is expected in one year or less, they are classified as current assets. If not, they are presented as non-current assets.

Trade and other receivables are recognized initially at fair value and subsequently measured at amortized cost using the effect interest method, less provision for expected credit loss. The Company uses a provision matrix to calculate expected credit loss (ECL) for trade receivables.

### (k) Financial instruments

Financial instruments are contracts that give rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31<sup>ST</sup> DECEMBER, 2019 (Expressed in thousands of Eastern Caribbean Dollars) (continued)

### 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### (k) Financial instruments (continued)

### (i) Recognition and measurement

All regular way purchases and sales of financial assets are recognised or derecognised on the trade date that is the date on which the company commits itself to purchase or sell an asset. A regular way purchase and sale of financial assets is a purchase or sale of an asset under a contract whose terms require delivery of the asset within the time frame established generally by regulation or convention in the market place concerned.

### Initial measurement

The classification of financial instruments at initial recognition depends on their contractual terms and the business model for managing the instruments. Financial instruments are initially measured at their fair value, except in the case of financial assets and financial liabilities recorded at fair value through profit or loss (FVPL) whereby transaction costs are added to, or subtracted from, this amount. Trade receivables are measured at transaction price.

### Subsequent measurement categories of financial assets and liabilities

The Company classifies all it's financial assets based on the business model for managing the assets and the asset's contractual terms.

The Company classifies its financial assets at amortised cost except equity which is at fair value through profit and loss.

### Amortized cost

Financial assets are measured at amortized cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31<sup>ST</sup> DECEMBER, 2019 (Expressed in thousands of Eastern Caribbean Dollars) (continued)

### 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### (k) Financial instruments (continued)

### (ii) Impairment

In relation to the impairment of financial assets, IFRS 9 requires an expected credit loss (ECL) model as opposed to an incurred credit loss model under IAS 39. The expected credit loss model requires the Company to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition of the financial assets. Therefore, it is no longer necessary for a credit event to have occurred before credit losses are recognised.

The Company records an allowance for expected credit losses for its trade receivables using a simplified approach to calculating ECLs whereby it recognizes a loss allowance based on lifetime ECLs at each reporting date. The ECL on these financial assets are estimated used a provision matrix that is based on it historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. The provision rates used in the provision matrix are based on days past due.

For all other financial instruments, the Company recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. If on the other hand the credit risk on a financial instrument has not increased significantly since initial recognition the Company recognizes the loss allowance for the financial instrument at an amount equal to 12-month ECL where applicable. The assessment of whether lifetime ECL should be recognised is based on significant increase in the likelihood or risk of default occurring since initial recognition instead of on evidence of a financial asset being credit-impaired at the reporting date or actual default occurring.

Lifetime ECL represents the expected credit losses that will result for all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible with 12 months after the reporting date.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31<sup>ST</sup> DECEMBER, 2019 (Expressed in thousands of Eastern Caribbean Dollars) (continued)

### 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### (k) Financial instruments (continued)

### (ii) Impairment (continued)

A financial asset is credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial assets have occurred. Evidence that a financial asset is credit-impaired includes observable date about the following events:

- (i) Significant financial difficulty of the issuer or borrower;
- (ii) A breach of contract, such as a default or past due event;
- (iii) It is becoming probable that the borrower will enter in bankruptcy or other financial re-organization; and
- (iv) The disappearance of an active market for that financial asset because of financial difficulties

### (iii) Write offs

The gross carrying amount of a financial asset is written off to the extent that there is no realistic prospect of recovery. This is generally when the Company determines that the borrower does not have assets or resources of income that would generate sufficient cash flows to repay the amount subject to the write-off.

### (iv) Derecognition of financial assets

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31<sup>ST</sup> DECEMBER, 2019 (Expressed in thousands of Eastern Caribbean Dollars) (continued)

### 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### (k) Financial instruments (continued)

### (v) Financial liabilities

When financial liabilities are recognised they are measured at fair value of the consideration given plus transactions costs directly attributable to the acquisition of the liability. Financial liabilities are re-measured at amortised cost using the effective interest rate.

Financial liabilities are derecognized when they are extinguished, that is when the obligation specified in the contract as discharged, cancelled or expired. The difference between the carrying amount of a financial liability extinguished and the consideration price is recognised in the statement of comprehensive income.

### (1) Revenue Recognition

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the Company's activities. Revenue is shown net of estimated returns, rebates and discounts.

Revenue is recognized when the Company has delivered products to the customer; the customer has accepted the products and collectability of the related receivables is reasonably assured.

### (m) Related Parties

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operating decisions. Transactions entered into with related parties in the normal course of business are carried out on commercial terms and conditions during the year.

### (n) Income tax

The charge for the current year is based on the results for the year as adjusted for items which are non-assessable or disallowed. It is calculated using the applicable tax rates for the period.

Deferred income tax is provided using the liability method, on all temporary differences at the statement of financial position date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax assets and liabilities are measured at the tax rate that is expected to apply to the period when the asset is realized or the liability is settled, based on the enacted tax rate at the statement of financial position date. Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilized.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31<sup>ST</sup> DECEMBER, 2019 (Expressed in thousands of Eastern Caribbean Dollars) (continued)

### 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### (o) Revenue Recognition

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the Company's activities. Revenue is shown net of estimated returns, rebates and discounts.

Revenue is recognized when the Company has delivered products to the customer; the customer has accepted the products and collectability of the related receivables is reasonably assured.

### (p) Stated capital

Ordinary shares are classified as equity.

### (q) Trade payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade payables are recognised initially at fair value and subsequently measured at amortized cost using the effective interest rate method.

### (r) Provisions

Provisions are recognized when the Company has a present legal or constructive obligation, as a result of past events, if it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made.

### (s) Dividends

Dividends that are proposed and declared during the period are accounted for as an appropriation of retained earnings in the statement of changes in equity.

### (t) Finance charges

Finance charges are recognized in the statement of comprehensive income as an expense in the period in which they are incurred.

### (u) Intangible assets

Amortisation is charged to comprehensive income on a straight-line basis over the estimated useful lives of the intangible asset unless such lives are indefinite.

### 3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS IN APPLYING ACCOUNTING POLICIES

The development of estimates and the exercise of judgment in applying accounting polices may have a material impact on the Company's reported assets, liabilities, revenues and expenses. The items which may have the most effect on these financial statements, are set out below.

### i) Valuation of property

The Company utilizes professional valuators to determine the fair value of its properties. Valuations are determined through the application of a variety of different valuation methods which are all sensitive to the underlying assumptions chosen.

### ii) Provision for expected credit losses of trade receivables

The Company uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due.

The provision matrix is initially based on the Company's historical observed default rates. The Company will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Company's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future.

### iii) Property, plant and equipment

Management exercises judgment in determining whether future economic benefits can be derived from expenditures to be capitalized and in estimating the useful lives and residual values of these assets.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31<sup>ST</sup> DECEMBER, 2019 (Expressed in thousands of Eastern Caribbean Dollars) (continued)

### 4. NET SALES

Net sales comprise the value of sale of Beer, Stout, Maltas, and Soft Drinks in Grenada, Trinidad and St. Vincent excluding Value Added Tax and Stamp Tax.

### 5. OTHER INCOME

Other income comprises manufacturers' rebate, sundry sales, profit on the disposal of property, plant and equipment and interest income.

### 6. PROFIT FOR THE YEAR

This profit is stated after charging:

	2019	2018
Auditors' remuneration	60	53
Directors' fees and expenses	6	3
Depreciation	4,366	2,360
Amortization	20	53

b) Purchase of goods	\$ <u>20,311</u>	\$ <u>19,269</u>
c) Payment of dividends	\$ <u>2,677</u>	\$ <u>2,446</u>

ii) Compensation of key management personnel of the company:

Salaries and other benefits \$1,446 \$1,779

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31<sup>ST</sup> DECEMBER, 2019 (Expressed in thousands of Eastern Caribbean Dollars) (continued)

### 23. OPERATING LEASE COMMITMENT

As at 31st December, 2019, the Company was committed to annual lease payments as follows:

		2019	2018
	Within one year	\$ <u>53</u>	\$ <u>53</u>
24.	EARNINGS PER SHARE		
	Net profit for the year after taxation	\$ <u>9,837</u>	\$ <u>9,621</u>
	Number of ordinary shares outstanding during the year	\$ <u>4,155</u>	4,155
	Basic earnings per share	\$ <u>2.37</u>	\$ <u>2.32</u>

### 25. RISK MANAGEMENT

Risk is inherent in the Company's activities but is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The management of risk is important to the Company's continuing profitability and each person is accountable for the risk exposures relating to their functions and responsibilities. The Company is exposed to credit risk, liquidity risk and market risk.

The Board of Directors is responsible for the overall risk management approach and for approving the risk strategies, principles, policies and procedures. Day to day adherence to risk principles is carried out by the executive management of the Company in compliance with the policies approved by the Board of Directors.

### Credit risk management

The Company has exposure to credit risk, which is the potential for loss due to debtors or counterparties failure to pay amounts when due. Credit risk is the most important risk for the Group's business: therefore management carefully manages its exposure to it. Credit risk exposures arise principally from the Company's receivables and financial transactions. The Company extends credit to recognized, creditworthy third parties who are subject to a credit verification process.

Significant changes in the economy, or in the state of a particular industry segment that represent a concentration of the Company's customer base, could result in losses that are different from those provided at the date of the statement of financial position.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31<sup>ST</sup> DECEMBER, 2019 (Expressed in thousands of Eastern Caribbean Dollars) (continued)

### 25. RISK MANAGEMENT (continued)

Cash and short-term deposits

These funds are placed with highly rated banks and management therefore considers the risk of default of these institutions to be very low.

### Trade receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The Executive Committee has established a credit policy under which each customer is analyzed individually for creditworthiness prior to the Company offering them a credit facility. Credit limits are assigned to each customer, which represents the maximum credit allowable without approval from the Board of Directors. The Company has procedures in place to restrict customers' orders if the order will exceed their credit limits. Customers that fail to meet the Company's benchmark creditworthiness can only trade with the Company on a cash basis.

Customer credit risk is monitored according to their credit characteristics such as whether it is an individual or company, types of industry, aging profile and previous financial difficulties. The Company's credit period is thirty (30) days. Trade receivables over one hundred and eighty (180) days are fully provided for.

The following table shows the maximum exposure to credit risk for the components of the statement of financial position.

	Gross Maximum Exposure		
	2019	2018	
Equity security	25	25	
Trade and other receivables	8,527	8,470	
Investment security	5,335	5,330	
Cash and cash equivalents	9,476	11,697	
	\$ <u>23,363</u>	\$ <u>25,522</u>
