Date

#### INFORMATION TO BE INCLUDED IN FORM ECSRC-K

#### 1. Business.

Provide a description of the developments in the main line of business including accomplishments and future plans. The discussion of the development of the reporting issuer's business need only include developments since the beginning of the financial year for which this report is filed.

The National Bank of Dominica operations continued to be impacted by the Covid 19 pandemic. The Eastern Caribbean Central Bank (ECCB) working with the Bankers Association approved a relief program to lending customers. It included a loan repayment moratorium and a waiver on late fees and charges to eligible customers.

In December 2019, NBD announced its intention to purchase the banking operations of Royal Bank of Canada (Roseau) Branch operations subject to regulatory approval. The ECCB subsequently provided its approval and the sale was closed on April 1, 2021. At year end, the Bank continued working on the transition of customer accounts to NBD's system.

NBD issued 6M ordinary shares in the second half of the financial year. The shares were offered through a Rights Issue to existing shareholders with shares not taken up offered to the public under an Additional Public Offering. 71% of the issue was subscribed.

As part of the Banks strategy to reduce its non-performing loan ratio, NBD engaged the Eastern Caribbean Assets Management Company (ECAMC) on purchasing certain non performing assets. The first sale of assets to the ECAMC closed in June 2021.

The Bank has revisited the initiative regarding the construction of the building in Canefield and is considering other options which will be better aligned to the changing status quo of reduced brick and mortar especially following the Covid-19 pandemic.

In the upcoming financial year, the Bank intends to engage the services of a consultant to complete a full Process Re-engineering and Operational Efficiency exercise with the view to improving the Bank's overall performance. The expectation is that this project will improve employee productivity, reduce operational costs, and enhanced customer experience.

Restructuring of the organization to better align with the Bank's growth strategy is expected to take effect in the third quarter of the FY 2022/23.

#### 2. Properties.

Provide a list of properties owned by the reporting entity, detailing the productive capacity and future prospects of the facilities. Identify properties acquired or disposed of since the beginning of the financial year for which this report is filed.

- 1. Hillsborough Street Branch, Roseau
- 2. National Bank of Dominica Financial Centre, Canefield
- 3. Portsmouth Branch, Portsmouth
- 4. Certificate of Title No. 564 of 2016 Reg. Bk. H20 Folio 68 over a portion of land known as lots 24 and 25 at Macoucherie Estate in the Parish of St Joseph in the Commonwealth of Dominica containing 1.545 acres and registered in the name of the National Investment Corporation Inc.
- 5. Certificate of Title No. 563 of 2016 Reg. Bk. H20 Folio 67 over a portion of land known as agricultural lot 3 at Macoucherie Estate in the Parish of St Joseph in the Commonwealth of Dominica containing 1.26 acres and registered in the name of the National Investment Corporation Inc.
- 6. A portion of land at Macoucherie Estate in the Parish of St Joseph in the Commonwealth of Dominica containing 2.192 acres and registered in the name of the National Investment Corporation Inc. (Certificate of Tile in progress.)
- 7. A portion of land at Macoucherie Estate in the Parish of St Joseph in the Commonwealth of Dominica containing 0.957 acres and registered in the name of the National Investment Corporation Inc. (Certificate of Tile in progress.)
- 8. A portion of land at Macoucherie Estate in the Parish of St Joseph in the Commonwealth of Dominica containing 3.897 acres and registered in the name of the National Investment Corporation Inc. (Certificate of Tile iXn progress.)
- 9. A portion of land at Macoucherie Estate in the Parish of St Joseph in the Commonwealth of Dominica containing 8.30 acres and registered in the name of the National Investment Corporation Inc. (Certificate of Tile in progress.)
- 10. Certificate of Title No. 154 of 1999 Reg. Bk. B13 Folio 80 over a portion of land at Glanvillia, Portsmouth in the Parish of St

#### 3. Legal Proceedings.

Furnish information on any proceedings that were commenced or were terminated during the current financial year. Information should include date of commencement or termination of proceedings. Also include a description of the disposition thereof with respect to the reporting issuer and its subsidiaries.

4. Submission of Matters to a Vote of Security Holders.

If any matter was submitted to a vote of security holders through the solicitation of proxies or otherwise during the financial year covered by this report, furnish the following information:

(a) The date of the meeting and whether it was an annual or special meeting.

The Seventheenth Annual General Meeting of Shareholders of the National Bank of Dominica Ltd, was held on March 26 2021

(b) If the meeting involved the election of directors, the name of each director elected at the meeting and the name of each other director whose term of office as a director continued after the meeting.

Directors elected at the Annual General Meeting held on March 26 2021:

- a. Shane Carriere
- b. Oliver Henderson

The following directors terms were continued after the AGM- March 26 2021:

- a. Urania Williams b. Gibbs Stephenson c. Jodie Luke d. Irving Williams e. Claudette Dangleben
- f. Hezron Seraphin

(c) A brief description of each other matter voted upon at the meeting and a statement of the number of votes cast for or against as well as the number of abstentions as to each such matter, including a separate tabulation with respect to each nominee for office.

Matters voted on by the shareholders at the seventeenth Annual General Meeting held on March 26 2022:

- (i) To receive the Report of the Auditors
- (ii) To approve the Annual General Meeting minutes
- (iii) To elect Directors to serve on the Board
- (iii) To fix remuneration of Directors
- (iv) To appoint Auditors for the year ending June 30th 2021 and to authorise the Board to fix the remuneration.
- (v) To consider and confirm the proposed amendments to the By-laws
- (d) A description of the terms of any settlement between the registrant and any other participant.

|    |  |
| 5. | Market for Reporting issuer's Common Equity and Related Stockholder Matters.   |
|    | Furnish information regarding all equity securities of the reporting issuer sold by the reporting issuer during the period covered by the report.                                      |
|    | The National Bank of Dominica Ltd did not sell any equity securities during the relevant period; securities are sold by securit holders by private treaty and are not publicly traded. |
| 6. | Financial Statements and Selected Financial Data.  |
|    | Attach Audited Financial Statements, which comprise the following:   |
|    | For the most recent financial year  (i) Auditor's report; and (ii) Statement of Financial Position;  |
|    | For the most recent financial year and for each of the two financial years preceding the date of the most recent audited Statement of Financial Position being filed                   |
|    | <ul><li>(iii) Statement of Profit or Loss and other Comprehensive Income;</li><li>(iv) Statement of Cash Flows;</li></ul>  |
|    | <ul><li>(v) Statement of Changes in Equity; and</li><li>(vi) Notes to the Financial Statements.</li></ul>  |

#### 7. Disclosure about Risk Factors.

Provide a discussion of the risk factors that may have an impact on the results from operations or on the financial conditions. Avoid generalised statements. Typical risk factors include untested products, cash flow and liquidity problems, dependence on a key supplier or customer, management inexperience, nature of business, absence of a trading market (specific to the securities of the reporting issuer), etc. Indicate if any risk factors have increased or decreased in the time interval between the previous and current filing.

The acquisition of the assets of Royal Bank of Canada Roseau, and the COVID-19 Pandemic, were significant events that impacted the risk profile of the Bank.

The pandemic impacted the economy and the ability of customers to service their loans. The Bank responded with the granting of moratoria on loans with exposures of 32.3M. Towards the end of the financial year, the majority of moratoriums had expired; existing moratoriums by value accounted for 7%% of the loan portfolio. As at the end of June 2021, there were moratoriums on 27 accounts with balances totaling \$43.8M. The loans on moratoria did not present a high risk to the Bank.

For the financial year 2020/2021, the Bank recorded a reduction in its delinquency and non-performing (NPL) ratios. The strategy to reduce NPLs included the sale of assets to the Eastern Caribbean Asset Management Corporation (ECAMC). The first sale was concluded in June 2021.

Insurance coverage for former RBC loans presented a risk. File reviews are ongoing to determine insurance and valuation needs.

In the second half of the financial year 2021, the market performance improved from the previous period where losses were realized in some months. There was a \$12.1M increase on the fair value of investment securities held in the externally managed portfolio as at year end.

The use of the Bank's online products increased during the Pandemic. MoBanking was utilized to facilitate pyramid scheme-like operations, although not pervasive. The Bank continued to safeguard itself against cyber risks. The strengthening of the Information Security function commenced with the assessment of adequate staffing and improvements to the structure.

The Bank continued to mitigate against Anti-Money Laundering (AML) risks through the upgrade of its transaction monitoring software.

In the period, operational risk events were varied. The Bank was exposed to fraudulent activity within the year which involved its ATMS and cards products. There was a cards BIN attack, however the value of successful transactions was minimal at \$2K. Fraudulent activity at ATMs totaled 20K. As part of the ongoing project where the Bank will migrate to a new cards processor (Fisery), the Bank's ATMs and cards will incorporate features to mitigate against fraudulent activity.

The Bank strengthened its Business Continuity Planning with the commissioning of the Off-Island Disaster Recovery Site. The Bayfront Branch (Former Royal Bank of Dominica) is exposed to climate risks given the location close to the sea. Plans are in place for continued operations at alternative locations in the event of a disaster

| (a) | Where the rights of the holders of any class of registered securities have been materially modified, give the title of the class of securities involved. State briefly the general effect of such modification upon the rights of holders of such securities. |
|-----|---|
| N/A |   |
| (b) | Where the use of proceeds of a security issue is different from that which is stated in the registration statement, provide the following:  |
|     | <ul> <li>Offer opening date (provide explanation if different from date disclosed in the registration statement)</li> </ul>   |
|     | <ul> <li>Offer closing date (provide explanation if different from date disclosed in the registration statement)</li> </ul>   |
|     | ■ Name and address of underwriter(s)  |
|     | Amount of expenses incurred in connection with the offer  |
|     | ■ Net proceeds of the issue and a schedule of its use   |
|     | <ul> <li>Payments to associated persons and the purpose for such payments</li> </ul>  |
|     |   |

8.

**Changes in Securities and Use of Proceeds.** 

| eta | If there has been any material default in the payment of principal, interest, a sinking or purchase fund instalment, or any other material default not satisfied within 30 days, with respect to any indebtedness of the reporting issuer or any of its significant subsidiaries exceeding 5 per cent of the total assets of the reporting issuer and its consolidated subsidiaries, identify the indebtedness. Indicate the nature of the default. In the case of default in the payment of principal, interest, or a sinking or purchase fund instalment, state the amount of the default and the total arrears on the date of filing this report. |
|-----|--|
| No  | o default as at reporting date.  |
| ))  | If any material arrears in the payment of dividends have occurred or if there has been any other material delinquency not satisfied within 30 days, give the title of the class and state the amount and nature of the arrears or delinquency.   |
|     | o arrears in the payment of dividends as at reporting date   |

Report any working capital restrictions and other limitations upon the payment of dividends.

(c)

9.

## 10. Management's Discussion and Analysis of Financial Condition and Results of Operation.

Discuss the reporting issuer's financial condition covering aspects such as liquidity, capital resources, changes in financial condition and results of operations during the financial year of the filing. Discussions of liquidity and capital resources may be combined whenever the two topics are interrelated.

The Management's Discussion and Analysis should disclose sufficient information to enable investors to judge:

- 1. The quality of earnings;
- 2. The likelihood that past performance is indicative of future performance; and
- 3. The issuer's general financial condition and outlook.

It should disclose information over and above that which is provided in the management accounts and should not be merely a description of the movements in the financial statements in narrative form or an otherwise uninformative series of technical responses. It should provide management's perspective of the company that enables investors to view the business from the vantage point of management.

The discussion should focus on aspects such as liquidity; capital resources; changes in financial condition; results of operations; material trends and uncertainties and measures taken or to be taken to address unfavourable trends; key performance indicators; and non-financial indicators.

#### General Discussion and Analysis of Financial Condition

The Covid-19 pandemic remained the dominant factor in shaping the way business was conducted; business performance and the general state of the economy. The pandemic caused NBD's operations to change in profound ways as the Bank worked to adapt and respond to keep employees and communities safe and help customers with their financial challenges.

In keeping with national and international strategies, various mitigating measures including social distancing were implemented to help control the spread of the virus. The Bank's social distancing and the appointment system implemented were aimed at protecting customers and staff whilst effective in containing the spread of the virus within manageable levels. These measures significantly impacted the bank's ability to maintain its quality-of-service delivery.

In an effort to mitigate the negative impact on the Bank's lending portfolio from the various Covid-19 related restrictions, the ECCB authorised the granting of moratoriums outside of the regulatory limitations in place. The moratoriums served to prevent delinquency and facilities degrading into non-performing status where customers earnings or businesses were impacted bas a result of the pandemic.

Internationally, Governments employed monetary policies aimed at supporting economic activity in an effort to curb the negative consequence of economic shutdowns and social distancing measures. In the United States of America, one of the countries most severely impacted by the pandemic led to with unemployment levels rising as high as 14.7% in April 2020 and the economy contracting by 31.4%. In the second quarter of 2020, the Fed employed various stimulus measures inclusive of reducing the federal funds interest rate, and the discount rate by 175 basis points to a range of 0.00% to 0.25% and by 150 basis points to 0.25%, respectively. Similar stimulus measures employed in most of the developed economies impacted the Bank in the form of significantly lower interest income on its deposits held at the various foreign banks.

The Acquisition of the assets and liabilities of the Royal Bank (Roseau) Branch on April 1, 2021 allowed for material shifts in the Bank's balance sheet. Key areas included cash and bank balances, loans and advances, and deposits from customers. This allowed for increased liquidity over the three months to June 2021 as the bank identified new opportunities within its risk appetite. The increase in risk weighted assets resulted in an overall 1% reduction CAR.

While the Bank's investment securities portfolio traded on the US market experienced losses at the onset of the pandemic, market recovery allowed for a unrealized gain of \$13.6M by financial year end.

#### **Liquidity and Capital Resources**

Provide a narrative explanation of the following (but not limited to):

- i) The reporting issuer's financial condition covering aspects such as liquidity, capital resources, changes in financial condition and results of operations.
- ii) Any known trends, demands, commitments, events or uncertainties that will result in, or that are reasonably likely to result in, the issuer's liquidity increasing or decreasing in any material way. If a deficiency is identified, indicate the course of action that the reporting issuer has taken or proposes to take to remedy the deficiency.
- iii) The issuer's internal and external sources of liquidity and any material unused sources of liquid assets.
- iv) Provisions contained in financial guarantees or commitments, debt or lease agreements or other arrangements that could trigger a requirement for an early payment, additional collateral support, changes in terms, acceleration of maturity, or the creation of an additional financial obligation such as adverse changes in the issuer's financial ratios, earnings, cash flows or stock price or changes in the value of underlying, linked or indexed assets.
- v) Circumstances that could impair the issuer's ability to continue to engage in transactions that have been integral to historical operations or are financially or operationally essential or that could render that activity commercially impracticable such as the inability to maintain a specified level of earnings, earnings per share, financial ratios or collateral.
- vi) Factors specific to the issuer and its markets that the issuer expects will affect its ability to raise short-term and long-term financing, guarantees of debt or other commitment to third parties, and written options on non-financial assets.
- vii) The relevant maturity grouping of assets and liabilities based on the remaining period at the balance sheet date to the contractual maturity date. Commentary should provide information about effective periods and the way the risks associated with different maturity and interest profiles are managed and controlled.
- viii) The issuer's material commitments for capital expenditures as of the end of the latest fiscal period, and indicate the general purposes of such commitments and the anticipated source of funds needed to fulfil such commitments.
- ix) Any known material trends, favorable or unfavorable, in the issuer's capital resources, including any expected material changes in the mix and relative cost of capital resources, considering changes between debt, equity and any off-balance sheet financing arrangements.

## Discussion of Liquidity and Capital Resources

| Liquidity remained strong within the period with no infractions to the ECCB's reserve requirement. All liquidity ratios were within the Bank's risk appetite. The former RBC deposits impacted the Bank's liquidity positively. At year end, the ratio of highly liquid assets to total deposits was 30%.  |
|--|
| Total Tier 1 Capital increased by \$18.2M to \$127.3M primarily as a result of the reported profits of \$18.4M.  |
| Total Regulatory Capital increased by \$16.9 million (15.2%) to \$127.9M and Risk weighted assets increased by \$122.2M (19.9%) to \$736.9M. The higher relative increase in risk weighted assets therefore led to a marginal reduction the Capital Adequacy Ratio (CAR) to 17.3% (from 18.1%), which still however remained above the ECCB's prudential requirements of CAR of 10% (increased from 8% in prior year). |

|  |

#### **Off Balance Sheet Arrangements**

Provide a narrative explanation of the following (but not limited to):

- i) Disclosures concerning transactions, arrangements and other relationships with unconsolidated entities or other persons that are reasonably likely to materially affect liquidity or the availability of, or requirements for capital resources.
- ii) The extent of the issuer's reliance on off-balance sheet arrangements should be described fully and clearly where those entities provide financing, liquidity, market or credit risk support, or expose the issuer to liability that is not reflected on the face of the financial statements.
- off-balance sheet arrangements such as their business purposes and activities, their economic substance, the key terms and conditions of any commitments, the initial on-going relationship with the issuer and its affiliates and the potential risk exposures resulting from its contractual or other commitments involving the off-balance sheet arrangements.
- iv) The effects on the issuer's business and financial condition of the entity's termination if it has a finite life or it is reasonably likely that the issuer's arrangements with the entity may be discontinued in the foreseeable future.

| The Bank reported gross undrawn loan commitments totaling \$61.5M and financial guarantees in the amount of \$16.6M.   |
|--|
| Based on drawn down scheduling, \$25M of undrawn loans have been projected to be disbursed in the new financial year with an almost 50:50 ratio commercial vs personal and mortgages (54% vs 46%).   |
| Financial guarantees comprises mainly contractors performance bond, advance payment guarantee and bid guarantees.  Over the past few years, the Bank has not been called on to honour guarantees since contractors have ensured that they deliver on commitments and maintained satisfactory delivery. |

#### Results of Operations

In discussing results of operations, issuers should highlight the company's products and services, facilities and future direction. There should be a discussion of operating considerations and unusual events, which have influenced results for the reporting period. Additionally, any trends or uncertainties that might materially affect operating results in the future should be discussed.

Provide a narrative explanation of the following (but not limited to):

- i) Any unusual or infrequent events or transactions or any significant economic changes that materially affected the amount of reported income from continuing operations and, in each case, the extent to which income was so affected.
- ii) Significant components of revenues or expenses that should, in the company's judgment, be described in order to understand the issuer's results of operations.
- iii) Known trends or uncertainties that have had or that the issuer reasonably expects will have a material favorable or unfavorable impact on net sales or revenues or income from continuing operations.
- iv) Known events that will cause a material change in the relationship between costs and revenues (such as price increases, costs of labour or materials), and changes in relationships should be disclosed.
- v) The extent to which material increases in net sales or revenues are attributable to increases in prices or to increases in the volume or amount of goods or services being sold or to the introduction of new products or services.
- vi) Matters that will have an impact on future operations and have not had an impact in the past.
- vii) Matters that have had an impact on reported operations and are not expected to have an impact upon future operations
- viii) Off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships that have or are reasonably likely to have a current or future effect on the registrant's financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.
- ix) Performance goals, systems and, controls,

#### Overview of Results of Operations

#### Income Statement

The reduction in interest rates in most of the developed economies resulted in the Bank earning significantly lower interest income on its deposits held at the various corresponding banks as represented by the \$3.16 million (83.1%) reduction in interest earned from deposits with Banks.

Interest income from loan and advances was negatively impacted by the local competitive environment whereby progressively lower interest rates on loans and advances were being charged. The reduction in average interest rates on loans and advances therefore led to a 4% reduction in interest income from the lending portfolio, despite the \$62.7M increase in the size of the portfolio.

The average reduction in interest positively impacted the value of investment securities held on the Bank's externally managed portfolio whereby a \$12.1M (819.5%) increase in the fair value of its investment securities held at fair value through profit or loss was realised.

The reduction in customer activity resulted in a \$1.9M (20%) reduction in income from fees and commission being generated during the period as compared to previous years.

The deposits from customers acquired through the RBC acquisition totalled \$164.8M. Overall, customer deposits increased year on year by \$203.1M or 16.9%. Although the increase deposits served to increase the Bank's liquidity and financial options, it nonetheless led to a \$0.7 million (3.2%) increase in interest expenses over the previous year.

Given the anticipated Eastern Caribbean Central Bank's Impaired Assets Standard, given the impact of bad debts write-offs, loan loss provisioning for impaired assets increased by \$16.7M (645.9%) in 2021. Taking into account loan loss recoveries of approximately \$2.6 million in 2021 (compared to \$4.7 million in 2020), net provisioning thereby increased by \$16.2 million to (\$14.1 million).

Operating Expenses increased by \$5 million (21.2%) over the previous year in large part due to the acquisition of the RBC operations as well as the Covid-19 related costs. Significant cost drivers associated with the RBC acquisition and the new Bay Front Branch (BFB) included increased personnel costs related to the onboarding of 18 new staff members; legal and professional fees and building repairs and maintenance. BFB related operating costs totalled \$1.9 million at year end June 2021.

Covid-19 related cost drivers included increased cleaning and sanitization labour and supplies as well as additional costs associated with facilitating the Bank's staff remote operations.

Despite the constricting impact of the Covid-19 pandemic and the increased costs associated with the RBC acquisition, net income decreased by \$5 million to a reasonable \$18.4M. Furthermore, we note that Net Income from the Bank's active operations (excluding fair value gains and loss provisioning expenses) decreased by \$0.8 million

#### **Balance Sheet**

The acquisition of the RBC operations was a dominant factor in growing the Balance Sheet.

The Bank realised a \$215.1M (15.7%) increase in Total Assets in 2021 over 2020. All major asset categories increased, except for funds held at non-Bank financial institutions which decreased by \$9.1m. Changes to major classes of assets were as follows:

Cash and Balances held with the Central Bank realised the largest increase of \$83.8m (78%) followed by a \$62.7M (9%) increase in net loans & advances of which 87.6% was due to the RBC acquisition and 12.4% due to organic growth of the portfolio. Deposits held with other banks increased by \$31.2M (12.8%) as the Bank began converting funds acquired into earning assets. Investment Securities increased by \$20.4M in large part due to the \$13.6M fair value gains on the externally managed portfolio.

The loans and advances portfolio accounted for 47.8% of total assets in 2021, reflecting a marginal 2.9% reduction from the 50.7% in the previous year. Deposits due from other banks represented the second largest asset class and accounted for 17.4% in 2021 which was down only marginally by 0.4% from 2020. The other major asset classes included investment securities and cash and balances held with the Central Bank which accounted for 16.7% and 12.1% respectively, providing a combined increase of 3.1% above the 25.7% combined value in 2021. All other assets accounted for 6.1% of total assets in 2021, representing a minimal 0.3% increase over the prior period.

The Bank's Deposits from customers and Total Liabilities also increased significantly, by \$203.1M (16.9%) and \$198.2M (15.7%), respectively. Equity also increased by \$17M (24.1%) to \$127.9M. Significantly, we note that the Bank's statutory reserve, was increased to the maximum amount, equating the Share Capital of \$20M.
