1. Description of the Industry in which the Company Operates

The company operates in the Banking and Financial Services Sector where it offers domestic banking and investment services through its branch network. The industry in which bank of Saint Lucia operates is highly competitive with many players offering similar products and services. The Bank's main competitors are the larger local, regional and international banks. Increasingly however, both insurance companies and non-bank financial institutions are now starting to encroach on markets that were strictly the domain of financial institutions. More specifically as it relates to the repurchase agreement offered by Bank of Saint Lucia, there are other non-bank financial institutions offering products that also pay higher than the typical savings deposit rate.
